

# Updates you will actually use

SMARTER RESEARCH DOCUMENTATION. BETTER COLLABORATION.  
MORE CONTROL

## NAVIGATION

- Navigate between (sub-)groups and roles with ease
- Switch between projects, folders and hidden content
- Search by title or ID – filter by owner or date

## ENTRY COLLABORATION

- Edit together with full record tracking
- Work one at a time – ensures compliance
- Avoid conflicts with automatic locking

## CHEMICAL AND MATH TOOLS

- Draw molecules with Ketcher
- Write and edit complex mathematical equations
- Use directly within your ELN

## TEMPLATES

- Append templates to entries while preserving the layout
- Track the source template directly in the entry history
- Set templates as read-only or editable

## REVIEW WORKFLOWS

- Streamline the signing and witnessing process
- Create and customize your review workflows
- Dive into the Basic and Advanced versions of Review Workflows
